

# BLUEPRINTS

Your Newsletter for Quality Workers' Compensation Information

## Builders Trust Takes Safety Very Seriously

This issue of Blueprints is entirely devoted to the safety services that Builders Trust offers to help you keep your employees safe on the jobsite. The Builders Trust Board of Trustees has invested a lot of resources into this over the years and in the process, Builders Trust has become the leader in safety services for the construction industry in the State of New Mexico.

Builders Trust has a rich history of delivering safety services and benefits to our Participants, essential for achieving industry compliance and mitigating workplace hazards and risks. These benefits not only ensure worker safety but also lead to reduced overhead costs and enhanced business sustainability.

Our Field Safety Service Department has evolved significantly from its early days of only conducting jobsite inspections and hazard assessments to becoming a premier provider of safety training classes in the state. Annually, we conduct an average of 1100 jobsite safety visits, offer over 125 diverse safety training sessions and meetings, and provide consultations on risk management and employee development.

Comprising five expertly trained and certified safety professionals, our Field Safety Service Consultants cover the entire state. They are committed to continuous professional education and excel in building relationships with our valued Participants to proactively prevent costly and severe employee injuries.

Whether you're a large or small contractor, commercial or residential, general contractor, sub-contractor, or service provider, we have skilled and experienced consultants ready to tailor solutions to meet your specific needs.

As the construction industry evolves and challenges multiply, we remain committed to offering our Participants world class Field Safety Services. Our goal is to assist you in proactively preventing employee injuries, controlling costs, and equipping you with the finest resources to safeguard your organization's safety and foster business expansion. Beyond ensuring peace of mind regarding employee care in case of injuries, consider what else your coverage provider delivers. With Builders Trust, you have a dedicated partner who prioritizes your well-being and delivers unparalleled services.

For more information and details please visit our website [www.builderstrust.com](http://www.builderstrust.com) , or call us at (505) 345-3477.

Through our Safety Service Department, Participants benefit from unparalleled support and services, including:

- **Jobsite Inspection and Audits:** Our visits are designed to help you assess workplace hazards, comply with regulatory requirements, and prevent injuries and incidents. We provide third-party inspections annually, saving you time and costs while offering valuable insights and recommendations for risk mitigation and compliance.
- **Company Written Safety Policy and Program Reviews:** Essential for maintaining industry compliance and guiding employee behavior, we offer recommendations and assistance in developing and updating written safety policies and programs tailored to your organization's needs.
- **Formal Safety Training:** From OSHA 10 & 30-Hour courses to specialized training in areas such as Fall Protection, Scaffold Safety, and First Aid/CPR, our courses are customizable to your operations, equipment, and environmental conditions. We offer training in both English and Spanish and can develop specific programs upon request.
- **Weekly Toolbox Talks:** Every Friday, we deliver Toolbox Talks covering pertinent safety topics in both English and Spanish, tailored to the diverse needs of construction trades and addressing industry trends and initiatives.
- **Safety Participation Programs:** Our Safety-First and Risk Improvement Programs foster a culture of safety within your organization, offering incentives for compliance and additional support for risk mitigation and training.
- **Risk Management:** We provide guidance on understanding the financial impact of workplace injuries and assist in developing strategies to minimize losses and improve safety outcomes.
- **Safety Officer/Manager Development:** We offer training and consultation to individuals seeking to fulfill the role of a dedicated Safety Officer, ensuring they are equipped with the necessary knowledge and skills to uphold safety standards within your organization.
